

Analytics and Insight for improved healthcare delivery

Understanding Outcomes, Advancing Care

MEDai, Inc., an Elsevier company, offers clinically-oriented decision support solutions that help improve the quality, coordination and delivery of healthcare through information sharing and real-time predictive analysis.

As an integral part of the Elsevier Clinical Decision Support solutions portfolio, MEDai provides actionable information for advancing healthcare.

Leadership

MEDai is a nationally recognized leader in the field of clinical outcomes analysis and predictive analytics, with award-winning solutions for improvement of healthcare delivery.

Experience

For more than a decade, MEDai has offered its unparalleled solutions to hospitals and health systems and is now a part of Elsevier's suite of Clinical Decision Support solutions.

Partnership

With MEDai, healthcare providers have an invaluable partner, providing:

- Real-time clinical surveillance and intelligent alerting for avoiding non-reimbursable events, correcting lapses in treatment protocols and increasing the quality of patient care
- Severity adjustment and statistical analysis
- Evidence-based guidelines and benchmarks
- A systematic method for improving care outcomes, patient satisfaction and operational efficiency

A comprehensive approach to collecting, reporting and submitting required data to The Joint Commission without burdening IS staff

Results

MEDai wraps its artificial intelligence technology with workflow oriented business intelligence applications allowing for robust analysis and reporting. Utilizing MEDai's cutting-edge solutions, healthcare providers can benefit from:

- Real-time clinical surveillance and alerting
- Superior data cleanup
- Comprehensive outcomes analysis
- Physician and facility profiling
- Identification of risk drivers for inpatient populations
- Clinical performance patterns over time
- Robust reporting
- Executive level dashboard for immediate identification of improvement opportunities
- Seamless data collection, analysis and regulatory reporting

Recognized as the best, MEDai delivers on the promise of healthcare improvement.
