

### Developed, maintained, tested and refined by clinicians, for clinicians

#### You + Elsevier: Co-creating the best places to give and receive care

For more than 25 years, Elsevier's CPM Resource Center (CPMRC) has been helping hospitals meet or exceed national patient safety standards by improving healthcare quality and clinical outcomes through:

- Evidence-based, interdisciplinary clinical practice guidelines, care planning and clinical documentation at the point of care based on the CPM Professional Practice Framework™.
- Web-based and EMR integrated solutions developed and maintained by interdisciplinary experts and tested/validated through a consortium of nearly 300 member hospitals.
- Practice Transformation services that assist organizations with clinical practice advancement and EHR/EMR implementation and adoption

Today, the integration of our workflow solutions into your EMR can do even more – by helping your facility meet ARRA requirements for meaningful use of healthcare information technology.

#### CPMRC: The preferred workflow solution of nurses and allied health professionals

Not just supplying evidence-based content to integrate into work flow, but actually helping to define the best practice workflow for clinicians, CPMRC helps improve:

- Efficiency and effectiveness at the point of care
- Care coordination and interdisciplinary communication
- Communication between clinicians and their patients and families
- Work culture and clinical care team job satisfaction

#### CPMRC solutions are:

- Standardized, evidence-based, and continuously updated
- Current and compliant with quality and safety initiatives
- Easily integrated within any electronic medical record
- Designed with an interoperable professional practice framework of care
- Proven to improve outcomes and reduce errors

With the highest quality evidence-based interdisciplinary clinical practice guidelines and documentation within a professional practice model of care, CPMRC delivers.

#### Our partners agree:

*"I think the work the CPM Resource Center team did with our interdisciplinary team helped build passion and re-engage people to the core of their caring."*

Judy Pechacek, RN, MSN  
Vice President of Patient Care and Chief Nursing Officer  
Fairview Southdale Hospital, Edina, Minnesota

*"The CPMRC Clinical Practice Guidelines helped us achieve standardization of evidence-based nursing practice across the system and optimize the quality of care we provide for our patients."*

Janice M. McCoy, MSN, RN, CNA, BC  
Chief Nursing Officer  
Cape Canaveral Hospital, Health First, Cocoa Beach, FL

*"The CPMRC Clinical Content within KBC helped us do in 15 months what we could not do in 10 years by ourselves" (standardize care across three healthcare settings).*

Rich Rogers CIO  
Health-First, Inc.
